

## High quality homes in 'Bridge hotspot

BUYERS have a unique chance to tap into the real estate boom in Murray Bridge, with AVJennings releasing a collection of new designer homes that are on sale now at the popular Pathways development.

The Parkview Collection, a high quality group of eight AVJennings homes, is currently available for purchase 'off the plan', allowing buyers to save thousands on stamp duty fees.

AVJennings' most popular designs have been selected in the Parkview Collection.

Designs include three or four bedrooms, two bathrooms, double garage, high ceilings and so much

more, with complete home packages priced from under \$300,000.

AVJennings executive general manager Peter Jackson said the Parkview Collection was a hassle-free opportunity for homebuyers to purchase a quality home in an area which offers a fantastic lifestyle.

"We've released this latest package of homes because of continuing strong demand for new homes in Murray Bridge," Mr Jackson said.

"We are confident these home packages will sell as soon as construction commences.

"However, we urge interested buyers to get in early, buy 'off the plan' and save thousands on stamp

duty fees.

"With three new AVJennings display homes now opened in Mount Barker, interested buyers can get a real feel for our product and the type of quality they can expect from the Parkview Collection."

The Parkview Collection will be built on the best allotments in Pathways - overlooking the reserve.

Construction of the Parkview Collection is due to begin in early November.
