

High quality homes

BUYERS have a unique chance to tap into the real estate market in Murray Bridge with AV Jennings releasing a collection of new designer homes at the popular Pathways development.

The Parkview Collection is a high quality group of eight AV Jennings homes.

There are only five homes remaining, which are complete and currently available for purchase.

AV Jennings' most popular designs have been selected in the Parkview Collection.

Designs include three or four bedrooms, two bathrooms, double garage, high ceilings and much more.

These complete home packages start at an affordable \$297,000.

If you are a first home buyer you may be eligible for the \$25,000 government grant, plus for a limited time AV Jennings is offering generous savings off the price of these homes.

AV Jennings executive general manager

Peter Jackson said purchasers who took advantage of the AV Jennings savings now would be able to buy and move in before Christmas.

"To achieve our 2008 sales targets we are offering some huge savings on the homes provided settlement occurs this year," he said.

With the current Government grants and extra incentives from AV Jennings, now is the time to buy.

The Parkview Collection is a hassle-free opportunity to purchase a brand new quality home in an area which offers a fantastic lifestyle.

The collection has been built on the best allotments in Pathways, overlooking the reserve and playground.

Inspection is a must, with the homes open every Sunday from 2pm to 3pm.

- Details: For more information or to arrange an inspection contact Paul Clifford at Masons Real Estate on 8532 3833 or 0438 813 916.
